

Attachment VS2 – Table 2 Classification of activities in the Mackenzie Basin Outstanding Natural Landscape – PC13 (s293v)

Key

Colour									
Activity Class	PA = permitted activity	CA = controlled activity	RDA = restricted discretionary activity	DA = discretionary activity	NC = non-complying activity	PROHA = prohibited activity			

Diagonal shading of the colours indicated an activity status that in my opinion is not consistent with the direction given in the policies.

“No Rule” means – the activity is not classified in the Plan, therefore section 87B91)(b) of the RMA applies and the activity is a discretionary activity (DA).

P = Policy R = Rule
